Report expiry date

The ChemCheck Summary Report expiry date is either the date of expiry of the Formulator's Gateway subscription OR the first product expiry date of all individually listed products in the product portfolio selection, whichever is earlier.

Product expiry dates

The ZDHC MRSL and Chemicals to Zero expiry columns reflect the validity of the certifications selected as per the report hierarchy. If multiple certifications with the same Chemicals to Zero level are available, the certification with the highest ZDHC MRSL level is selected.

Note: ZDHC recommends requesting an updated report every 6 months.
